On this webpage, you can find the **complete menu of Bap** from Stockport. Currently, there are **15** meals and drinks up for grabs. This café in Stockport recently introduced a full English breakfast, but diners have faced inconsistent availability and quality. Equipment issues and ingredient shortages, particularly with eggs, have hindered the menu promise. Customers have reported lukewarm dishes and stingy portions, leading to mixed reviews about value for money. Despite these drawbacks, the café's atmosphere and coffee have received praise. Friendly service and a clean environment contribute positively to the experience, while popular lunch options like fresh sandwiches and jacket potatoes have garnered compliments. Overall, while there are commendable aspects, improvements are needed for a consistently satisfying dining experience.
