Here you can find the [menu](#) of **D's** in Larne. At the moment, there are **15** meals and drinks on the menu. Nestled in a bustling locale, this restaurant has garnered mixed feedback from diners. While some have praised its fresh fish and generous portions of chips, others have found fault with overcooked chicken and poorly executed dishes. The service, though friendly, often falls short in efficiency, leading to long wait times. Many recommend trying the signature battered stuffed sausages, which have received high marks for flavor. Despite occasional culinary missteps, the establishment's dedication to quality and innovation in its menu keeps patrons returning for more. Overall, it remains a popular spot for comfort food lovers, albeit with room for improvement.
