On this site, you can find the **complete menu of Little India** from New Forest. Currently, there are **17** meals and drinks up for grabs. Little India used to be a go-to favorite, but recent experiences have been disappointing.

Issues with watery korma, slimy chicken, and bland mixed grill have led to a decision to not return. However, positive reviews do exist, with one customer praising the quality of food despite a slight delay in delivery. Another reviewer praised the restaurant's excellent food, service, and BYO alcohol policy. While some past experiences have been mixed, recent visits have been promising, with delicious curries and good service noted. Little India appears to be improving and worth another chance for those seeking top-notch Indian cuisine.
